

2024 Summer Internship Program

“The Summer Intern Program is your gateway to a transformative adventure that aims to leave you inspired, informed, and ready to succeed in the world of Finance”.

The Summer Internship Program is a primary source of hiring into our two-year post-graduate Program Analyst positions

Join Natixis as part of our Summer Intern Program and embark on a **10-week journey of learning and discovery** within the world of banking. Over the course of the program, you will work alongside industry experts on concrete projects and develop an understanding of how Natixis CIB operates. We offer internship opportunities in the areas such as **Investment Banking, Trading, Sales & Financial Engineering and Support & Control** functions. This program gives you hands-on finance experience and exposure to our international corporate culture.

You will participate in a mid-internship and end-of-internship evaluation to ensure that you are honing your skills and receiving timely feedback on your performance.

Qualifications

This program targets candidates **in their third year of undergraduate studies** with a **high level of academic achievement**, who are interested in working within a rapidly changing and demanding, but ultimately **rewarding** environment. The ideal candidate should possess:

- **Financial analysis:** capability for analysis and strategic thinking
- **Adaptability:** Willingness to learn and adapt quickly to changes in the financial markets, industry dynamics, and company strategies
- **Industry Knowledge:** A basic knowledge of how the markets work

- **Communication skills:** Effective communication skills - both verbal & written
- **Problem solving:** Analytical mindset with the ability to identify issues, propose solutions, and make sound recommendations based on available data
- **Teamwork and Collaboration:** Ability to work effectively with others
- **Initiative:** Willingness and ability to succeed in an entrepreneurial
- **Proficiency** in Microsoft Excel, Word, and PowerPoint

Natixis accepts applications from a wide array of universities. Successful candidates must have authorization to work in the U.S. indefinitely (no visa sponsorship provided). To Apply: please check your Handshake® account or find us on LinkedIn

We look forward to meeting you!

The salary for this program is **\$40.86 per hour**.

The program lasts 10 weeks, from **June 3, 2024 to August 9, 2024**

Trading, Sales & Financial Engineering Summer Internship Program

Within Global Markets you will work in a dynamic environment with exposure to senior management. You will have the opportunity to work with teams across the value chains focused on a wide variety of clients including but not limited to Corporates, Hedge Funds, Banks, etc. On-the-desk training will teach you more about the products, risk assessment techniques, pricing fundamentals, and client interactions necessary to become a Program Analyst.

Placements may include, but are not limited to, the following: Macro Chain, Credit Chain, GSF Chain, Commodities Chain, Equities Solutions Chain.

Rotational structure: **two placements** of **five-weeks** each. You'll experience two exciting facets of the banking industry, gaining a comprehensive **understanding** of the **overall business**.

Placements will be determined through interview feedback and business needs before the internship begins.

Banking Pool Summer Internship Program

You will work in a fast-paced environment, gaining real **experience** and **exposure** to products to get a well-rounded view into the Natixis CIB through the two-desk rotation. Over the course of the internship, you will be able to build relationships across different areas of the firm. Your internship coordinator and assigned managers will ensure that you work on a mix of projects and deal activity over the 10-week program so that you are best positioned to understand the world of finance.

Activities include but are not limited to: **Investment Banking** (Debt Capital Markets, Global Trade Finance, Aviation Finance, Real Estate & Hospitality, Infrastructure, Leveraged Finance), **Coverage** Banking, and **Latin America Platform**, headquartered in New York.

Rotational structure: **two placements** of **five-weeks** each. You'll experience two exciting facets of the banking industry, gaining a comprehensive **understanding** of the **overall business**.

Placements will be determined through interview feedback and business needs before the internship begins.

Support & Control Functions Summer Internship Program

Within **Control functions** (Risk, Compliance, Audit...) or **Support functions** (Information Technology, Operations, Legal, ...) you will have the opportunity to discover activities that provide a level of service that is essential for the excellence of operational teams and the company's overall efficiency.

Support and Control functions include but are not limited to: Information Technology, Compliance, Risks, Finance, Legal, Operations, Audit...

Placement of **10 weeks** in a one of our Support or Control Function.
